

I believe KLOVE radio serves a public interest wherever it is broadcast. It helps to send the message of Jesus to those who are searching. And for those of us who know Him, it helps to encourage us in our faith daily. The songs, announcers, and guest speakers are wonderful to listen to. The airwaves are full of programs that tear down, mock and vilify anything that is of value in our world. I worry about society and the path it is on as a whole. I have seen the moral values I was raised with (in the 60's-70's) trampled on TV and on the radio. Please keep KLOVE on the air so there is at least one station those who feel as I do can listen to. Personally, I've already given up on TV-having stopped watching over 10 years ago- please don't take away my only choice for radio. Thank You.
